ORDER OF BUSINESS:

1. CALL TO ORDER: The meeting was called to order by Chair Elisa Rawlinson at 1:05 P.M. Roll call taken

Butte Countywide Homeless HMIS/CES Subcommittee Meeting Minutes January $3^{\rm rd}$, 2022 Butte County Employment and Social Services P a g e | 2

2. APPROVAL OF MINUTES - ACTION: The minutes for the HMIS/CES Committee Meetings for December 6th, 2021, were approved with no corrections.

Motion to approve: Stephan Spirk

Seconded: Angie Little

- 3. AGENCY UPDATES: Jamie McLaughlin reported continuing work toward a temporary emergency housing center with the help of their partnering agencies. Moriah McGill reported her agency just had their first tribal HDAP taskforce and will be sending out a list of their tribal contacts to the committee. Shelly Watson with the Jesus Center reported that the shelter site recently rotated their 'men's quarters' over to the 'women's quarters' to accommodate the bedding needs. The women's shelter site is currently at capacity and the men's shelter has between eight and eleven beds available. Stephan Spirk with CAA reported open housing opportunities for homeless with children. Angie Little with HACB reported on her continuing efforts toward the emergency housing vouchers, which is nearing its end.
- **4. Updates a) Ongoing open office hours (started Dec. 15th, 2021):** Open office hours have a one hour duration and are intended to provide HMIS users access to training, ask questions and gain general knowledge about the system. These meetings are open to all HMIS users and recordings of the meetings are being sent out to participating agencies.
- 5. Longitudinal Systems Analysis (LSA): The LSA this year was slightly delayed, it normally begins in mid-November, however, this year didn't begin until mid-December. HUD has made some adjustments to the LSA process in an attempt to make it easier to find and correct data quality issues. Information has been sent to some of the participating agencies with identified data quality disparities for correction. The LSA will be completed mid-February and all corrections will need to made prior to that deadline. Elisa went on to discuss, and give many examples of, the more common mistakes that are being made in the HMIS/CES system and how to correct them.
- 6. Priority Points and Community Queues: Elisa Rawlinson is currently working on creating a flow chart for the Chronically Homeless priority points that will be added into the CES priority point group. It was stated that this new flow chart and priority point values will be made available to the committee before the next HMIS/CES meeting on February 7th, 2022. It has been identified that there are some discrepancies in regard to how priority points are currently being allocated and a suggestion made of 'stacking' priority points, which is in effect. It is the opinion of some committee members that this practice should be corrected to only give one group of priority points to clients at the time of their enrollment. There is a community queues work group being created to begin working on the necessary changes to the priority points system for each demographic population that will begin meetings at the

Butte Countywide Homeless HMIS/CES Subcommittee Meeting Minutes January 3^{rd} , 2022 Butte County Employment and Social Services P a g e \mid 3

end of February. Elisa opened up a discussion for the committee for their thoughts on the priority points system and how to best amend the current system to increase fairness. After a great deal of questions and suggestions it was requested that Elisa Rawlinson come up with a few examples of possible alternatives to the current priority point system. She was able to show an example to the committee of how the priority points are skewing the results of showing the highest needs and barriers clients are faced with. Once the community queues and priority point systems are properly working HMIS has a thus far non-utilized referral function that can be implemented to help connect clients with providers.

7. **ANNOUNCEMENTS/NEXT MEETING:** The Point in Time count will be on January 26th, 2022. People are encouraged to volunteer to help with the PIT count, steps and instructions were given.

The next HMIS/CES Committee Meeting will be on Monday, February 7th, 2022; 1:00-3:00

8. ADJOURNMENT: The meeting was adjourned at **1:49** P.M.

Quick Guide: FAQ on HUD - Move-in Dates

Housing and Urban Development (HUD) expanded the Move-in Date field (3.20) in 2017 to include all permanent housing types (Permanent Housing Only, Permanent Supportive Housing, Permanent Housing with Services, Rapid Re-Housing.) The intent of this field is to document the date that a household admitted into a Housing Project moves into housing and physically occupies the unit. This is critical point-in-time data that differentiates those that have already moved into permanent housing from households who are enrolled into a permanent housing project but are still literally homeless (i.e. in emergency shelter, safe haven, transitional housing or outside), i.e. accepted into the program but not yet moved in.

Why Does This Matter?

Overlapping and Missing Move-in Dates cause errors on our Federal Reports and decrease our reliability on the data for our system.

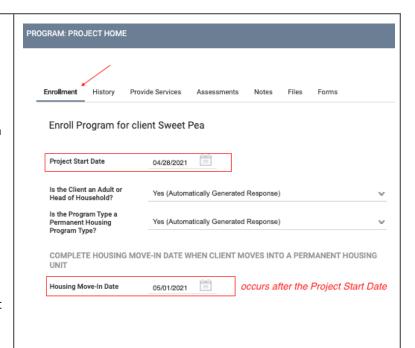

- Missing Move-in Date Error This can show that they were never housed.
- Overlapping Move-in Date Error This is when someone is showing as having a Move-in Date, but also either
 an active enrollment in a shelter/transitional program or another housing program during the same period.
 Overlapping errors create ambiguous data which is unreliable, since someone can physically only occupy one
 space at a time.

Before entering a Move-in Date, check these first:

- → Does the Move-in Date fall before your Program Enrollment Date?
- → Does the Move-in Date after the exit date?
- → Is there already a Move-in Date in the system in another Housing Program?
- → Does the Housing Move-in Date fall during a Transitional Housing or Emergency Housing Program Enrollment?

How to complete the Move-in Date:

Once a client has a Project Start Date in a housing project, record the date a client moves into the permanent housing unit on the Head of Household's program enrollment screen.

Move-in Date FAQ

What happens when the client is moving from one PSH building to another PSH building?

Exit the client from the first building. Enter a new program enrollment for the new building. The Program start date for the new program and the Move-in Date will be the same, the date they moved in.

Is the Move-in Date the same as the "lease date"?

Sometimes it can be, but sometimes not. HUD defines Move-in Date as the date the household is physically located in the unit.

What happens if the household never moves into housing?

In some situations, the household never moves into the housing, this may be more common with RRH. In those cases, do not enter a Move-in Date, and you will exit the client from the program.

What should I do if the Move-in Date I want to enter is during a shelter enrollment?

Contact the program who enrolled the client to find out if they can double check their records and update as necessary to avoid an overlapping enrollment.

What happens if the client loses their housing and then finds a new unit?

This can happen with RRH programs when a lease situation doesn't work out. If there were no days in homelessness in between the two units, no data entry requirement is needed. If the client lost housing and became homeless, you will exit the client with the accurate exit destination, and then create a new program enrollment. Never delete a Move-in Date already captured in HMIS. You will exit the client from the program, create a new enrollment, and then record the new Move-in Date.

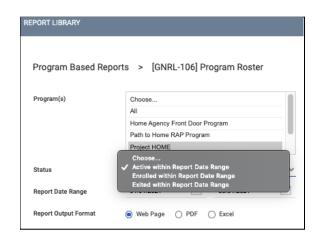

Running Reports to Track Move-in Date

Monitoring and correcting Move-in Date Errors is everyone's responsibility. The following reports can be run by all HMIS users. They are easy and straightforward to complete, and can be run at any time. Below are instructions and best practices.

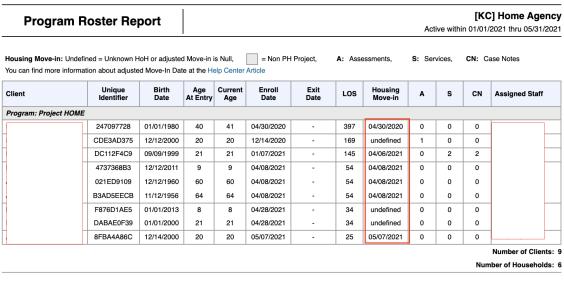

[GNRL - 106] Program Roster

This Program-based report lists program stay information for selected programs and status according to specified report dates. Run can be run for those "Active within report date range", "Enrolled within report date range", and those "Exited within report date range". Select the parameters and the date range that you want to review.

The report will give you a list of clients, and their Move-in Date. If their Move-in Date is either invalid (i.e. occurring before program start) or missing, you will have an "undefined" text in the description. Move-in Date needs to be added for the Head of Household only.

Total Number of Clients: 9

Review these regularly and add Move-in Dates on the enrollment screens for any that are missing, ensuring they occur on or after the program start date.
